Red Hat Day 2015

Locul desfasurarii: Grand Hotel Continental
Organizator: Romsym Data

Red Hat si Romsym Data , distribuitorul autorizat Red Hat in Romania, va invita sa aflati care sunt cele mai noi tehnologii disponibile pe piata. Prin participarea la acest eveniment veti intelegere mai bine evolutia ecosistemului IT si cum Red Hat va poate ajuta sa deblocati valoarea sa. Evenimentul va avea loc la Grand Hotel Continental pe data de 21 aprilie 2015. Am pregatit pentru dumneavoastra o agenda ce va fi precum o calatorie impreuna cu Red Hat in sfera afacerilor ce iau in considerare tehnologiile Open Source. Va vom prezenta beneficiile unei astfel de abordari, optiunile si oportunitatile pe care le puteti avea utilizand solutiile din portofoliul Red Hat, totodata va vom prezenta pe parcusul evenimentului pietrele de temelie ale viitoarei infrastructuri IT: platforma, solutii middleware si solutii cloud. Veti avea ocazia sa-i intaniti si pe partenerii locali, sa invatati de la personanul certificat al acestora si sa auziti despre implementarile de succes din Romania. Nu ratati ocazia sa va intalniti cu specialistii Red Hat, sa discutati si sa invatati de la acestia. Verificati-va agenda si inregistrati-va pana la data de 17 aprilie 2015, la evenimentul Red Hat Day 2015! Asteptam cu placere sa ne vedem la evenimentul Red Hat Day 2015!

Confirmare pana la data: 21 aprilie 2015
Participare: Intrare libera

Program

09:30 - 10:00 Registration Welcome

10:00 - 10:15 Welcome

Andrew Lucek, Channel Manager CEE, Red Hat and Razvan Balint, Business Development Manager, Romsym Data

10:45 - 11:00 Red Hat – Taking the Open Source technology into Business

Andrew Lucek, Channel Manager CEE, Red Hat

Open sources technologies are every where around us and run the most critical IT systems like flight control. They are as well the Engine“ of major IT innovations of the recent decade and onwards. During the presentation you will learn why and how open source technologies might help to boost your business as well and to help yopu on your journey of IT Transformation.

11:00 - 11:45 ?Build your IT infrastructure on a platform without boundaries

Wojciech Furmankiewicz, Sr. Solutions Architect, Red Hat CEE and Marius Pana, General Manager, Spearhead

Software that's open can change the way you do business. It lets you make your own technology choices: hardware, systems, and applications. Find a new path that lets you do more while using the investments you've already made. Demand more from your infrastructure. Build a technology base that can give you the tools you need today and carry you through tomorrow. Experience what IT can do when released from proprietary limits and vendor-imposed constraints. Innovate without boundaries.

11:45 - 12:15 Coffee Break

12:15 - 13:00 When everything works together, you can concentrate on making your business better

Wojciech Furmankiewicz, Sr. Solutions Architect, Red Hat CEE

Transform to IaaS today—or evolve at your own pace. Infrastructure-as-a-Service (IaaS) with automated provisioning lets users solve their own problems. Self-service, on-demand access to IT resources means users can create and access the tools they need in minutes —instead of days, weeks, or months.

13:00 - 13:45 Innovate faster, in a smarter way

Jaroslaw Stakun, Sr. Solutions Architect, Red Hat CEE and Dan Pupaza, Application Development Manager, Bull România

Having the right middleware makes the things that should work, actually work. And it makes your IT team more productive. Red Hat JBoss Middleware is a family of lightweight, cloud-friendly, enterprise-grade products that help organizations innovate faster, in a smarter way.

13:45 - 14:00 Q&A, wrap of the seminar and drawing of prizes

14:00 - 15:00 Lunch
